

LENCHO TAYE

Address: Alamayo Atomsa St., Adama City
Phone: +251-977-932-462
Email: lencho@eaglopen.org
Portfolio: lencho.eaglopen.org

PROFILE

STEM innovator, educator, and aspiring aerospace engineer committed to using science and technology to solve real-world challenges in underserved communities. Founder of EAGLOPEN Science and Technology Organization and developer of **Blind-Tech project**, an award-winning assistive technology system created for visually impaired individuals.

Champion of both the **STEM Science and Engineering Competition** and the **National Science and Engineering Fair**, representing STEMpower Org., with my project Blind-Tech. Experienced in programming, embedded systems, and artificial intelligence with a strong commitment to expanding STEM education in Africa.

EDUCATION

ODA Special Boarding School — Ethiopia

ODA, Adama/ 2021 – 2025

Scholarship Student | Perfect GPA

- Earned a full academic scholarship after achieving the highest regional score in Grade 8.
- Maintained straight A+ grades throughout high school, graduating with a *perfect 4.00 cumulative GPA*.
- Received multiple academic excellence medals for outstanding performance in STEM subjects.

Adama Science and Technology University — Ethiopia

ASTU, Adama/2025 - present

- I am currently pursuing a Bachelor's degree in Engineering at Adama Science and Technology University (ASTU).

HONORS & DISTINCTIONS

STEM Science and Engineering Competition — 1st Place

- Recognized for developing a practical engineering solution for visually impaired individuals.

National Science and Engineering Fair — Gold Medal (1st Place)

- Gold Medal award for Blind-Tech assistive technology system.

Academic Excellence Awards

- Multiple medals recognizing outstanding academic achievement.

TECHNICAL SKILLS

Programming

- Python
- Algorithms & Data Structures
- Competitive Programming

Engineering & Hardware

- Microcontrollers
- Sensors and embedded systems
- Assistive technology design

Artificial Intelligence

- Machine Learning fundamentals
- Computer Vision
- Natural Language Processing

PROJECTS & INNOVATION

Blind-Tech — Assistive Technology System

Award-winning engineering project designed to assist visually impaired individuals.

Key features:

- Wearable obstacle detection system
- Emergency communication system
- GPS location tracking
- Smart home automation integration

Impact:

- Developed through field research with visually impaired users
- Designed as an affordable assistive solution for underserved communities

LEADERSHIP

Founder & CEO — EAGLOPEN Science and Technology Organization 2022 – Present

Founded a STEM initiative dedicated to expanding access to high-quality technology education for Ethiopian students.

- Designed curriculum in programming and computational thinking
- Mentored students in algorithms and software development
- Organized training programs introducing students to AI and computer science

Impact:

- Trained 50+ students in programming and problem solving

Instructor — EAGLOPEN AlgoLab 2025

Adama Science and Technology University

- Delivered 30+ lectures on programming and algorithmic problem solving
- Mentored students in computational thinking and software development

Director — First Aid & Anti-HIV/AIDS Club 2024

ODA Special Boarding School

- Organized health awareness programs
- Trained over 400 students in first aid and community health practices

PROGRAMS & SELECTED OPPORTUNITIES

AddisCoder Competitive Programming Program

- Selected among top Ethiopian students for advanced algorithm training.

Pan-African Artificial Intelligence Camp

- Participated in international AI innovation program.

Ethiopian Artificial Intelligence Institute Summer Camp

- Studied machine learning, robotics, computer vision, and natural language processing

RESEARCH MENTORSHIP

Dr. Birhanu Bulcha

Research Engineer - NASA Goddard Space Flight Center

- Mentored the development of the Blind-Tech engineering system.
